EDUCATION

B.S., Information Assurance & Cybersecurity Management

Expected: Spring 2027

University of South Florida, Muma College of Business — Sarasota-Manatee, FL

GPA: 3.88

Prior coursework toward A.A. at State College of Florida, Manatee–Sarasota (credits transferred to USF).

TECHNICAL SKILLS

- **Security & Networking:** TCP/IP, Wireshark, Nmap/Zenmap, Nessus, PCAP analysis, network forensics, Windows Event Viewer, vulnerability assessment
- **Programming & Scripting:** SQL, Python (scripting), HTML, CSS
- **Frameworks & Platforms:** React Native, Expo, Node.js, Vercel, GitHub Actions
- **Databases & Cloud Backend:** PostgreSQL, Supabase (Auth, Edge Functions, Storage), row-level security, REST APIs, webhooks
- **Observability & Tooling:** Sentry, PostHog, BetterStack, Git, GitHub
- **Data & Analytics:** Tableau, Excel (advanced), data visualization

WORK EXPERIENCE

Chief Technology Officer — Coravu LLC

Spring 2026 – Present

- Built a B2B talent acquisition platform that replaces résumé-screening with structured student competitions. Companies sponsor competitions, judges score submissions, and top performers feed directly into the client's recruiting pipeline.
- Designed multi-tenant security architecture using PostgreSQL row-level security policies across 16+ tables to enforce role-based access control across six distinct user roles.

Funding Committee Chair & Council Member — USF Sarasota-Manatee

Fall 2025 – Present

- Oversee allocation of \$2M in student funds to support organizations and initiatives

Resident Assistant — Atala Hall, USF

Fall 2024 – Spring 2026

- Respond to time-sensitive incidents, following protocols and maintaining accurate documentation

Business IT Specialist — Coblentz Technology LLC, Millersburg, OH

Summer 2025

- Configured and installed wireless bridges, access points, and security camera systems; troubleshoot Layer 1 network issues including cabling, signal, and connectivity problems
- Diagnosed and repaired computer hardware issues, including component replacements

CYBERSECURITY LABS

Incident Response & Forensic Analysis — Course Lab · *GitHub*

- Performed forensic analysis of a multi-stage cyberattack using Wireshark and PCAP data to identify credential compromise, lateral movement, and command-and-control activity; reconstructed a full attack timeline and mapped techniques to known threat patterns.

Vulnerability Assessment & Penetration Testing — Course Lab · *GitHub*

- Conducted network vulnerability assessments using Nmap/Zenmap and Nessus to identify misconfigurations and weak authentication; prioritized findings by risk and developed remediation recommendations.

Network Traffic Analysis (Wireshark) — Course Lab · *GitHub*

- Analyzed network traffic across DNS, HTTP, TCP, and ICMP to identify abnormal patterns and potential security risks.

AWARDS & HONORS

- **Rising Bull Award** – Campus Involvement Leadership Awards (Spring 2026)
- **Student Leadership Award** – Muma Digital Business Awards (Spring 2026)
- **Outstanding Emerging Leader** – Campus Involvement Leadership Awards (Spring 2025)
- **Dean's List** – University of South Florida (Spring 2025, Spring 2026)
- **IACM Student Spotlight Representative** – USF Muma College of Business (Fall 2025)
